Original

全体寸法 : 200 mm

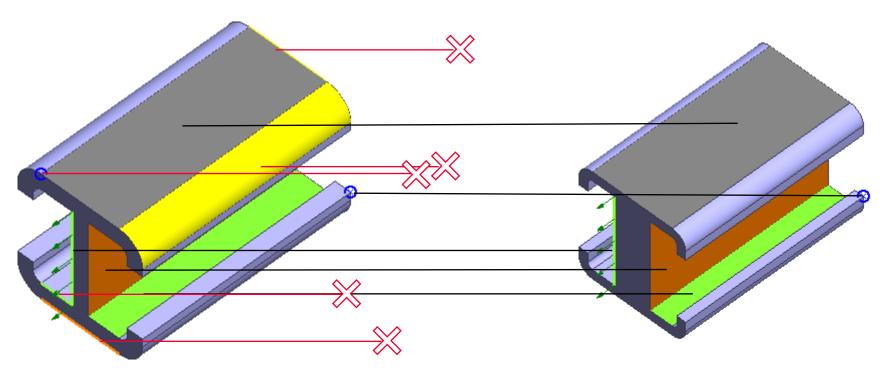

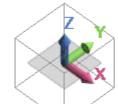

Update without Topology Matching

The change in the internal topology index may disrupt the assignment of boundary conditions and mesh sizes.

モデルの作り方によっては内部のトポロジー番号が変わってしまうため 境界条件やメッシュ設定が引き継がれない

Update with Topology Matching

Since the correspondence is estimated based on a machine learning model, it remains robust even if the shape changes.

> 形状の類似度に基づいて対応を推定するので 多少形が異なっても問題ない
